

# JOB OFFER

## DEVOPS ENGINEER

### THE COMPANY

---

Nintendo European Research and Development (NERD) is a French subsidiary of Nintendo. We are a company of around 85 employees who share a passion for creating key software technology and cutting-edge solutions for Nintendo Switch™ and other Nintendo platforms. In close collaboration with counterparts in Japan and the USA, we contribute in fields such as emulation, signal processing, content generation, computer vision, machine learning, system development, optimization and security to create solutions deployed on over a hundred million homogeneous devices. Come discover an engaging and welcoming work environment in the heart of Paris and join our unique team in its mission to put smiles on people's faces!

### POSITION RESPONSIBILITIES

---

We are looking for a DevOps engineer, to work closely with NERD teams and other entities in the Nintendo group. Responsibilities include:

- Manage and support internal applications and associated infrastructure
- Continuously monitor performance and security matters, focusing on integrity, reliability and safety
- Watch and assess software technologies, applications and software components that are likely to suit current and future operational needs
- Propose and develop in-house solutions when suitable
- Deploy, configure, and operate applications and services used by NERD teams on a day-to-day basis (Source Control Management, Continuous Integration, collaboration tools)

### CANDIDATE PROFILE

---

NERD is an equal-opportunities employer. All characters are welcome, regardless of gender, ethnicity, religion, sexual orientation, ableness or age.

You are a team player, with a holistic approach to operational topics, a service-oriented mind and good relational skills. You are rigorous, and curious about cutting-edge technologies. You demonstrate autonomous learning capabilities and are able to solve problems using lateral thinking. A security-aware mindset is paramount.

You ideally have a master's degree (or an equivalent technical level) in Computer Science, and experience in software development.

The position requires experience or skills in the following domains:

- System administration (network, Active Directory, DNS, DHCP, LDAP/SAML) of common OS (Linux, Windows, macOS) in virtualized or containerized environments (VMWare, Docker, Kubernetes, ...)
- Source Code Management, CI/CD (Jenkins, Nexus) and Configuration Management (Ansible, Puppet)
- System development (Python, Linux / Windows shells, batch, PowerShell, Groovy, ...)
- Monitoring (Zabbix, Grafana, ELK, Prometheus)
- Administration of corporate collaboration tools (Atlassian Suite)

We expect candidates to be proficient in English, both written and spoken. The majority of employees speak French, but we also welcome non-French speaking candidates to apply. French, English and Japanese lessons with qualified teachers are provided in the office for those willing to learn.

### ADDITIONAL INFORMATION

---

This full-time position is located in central Paris, France, and candidates are expected to relocate near Paris (domestic and international relocation support provided).

### CONTACT

---

If you believe you are the right person for this position, please send a resume and a cover letter to [apply@nerd.nintendo.com](mailto:apply@nerd.nintendo.com) with **PSDVOP2025** in the subject line.
